

BUSINESS MANAGEMENT, ASSOCIATE OF APPLIED SCIENCE (BUSINESS ADMINISTRATION CONCENTRATION)

The Business Administration concentration in Business Management Associate of Applied Science degree provides the skills and knowledge necessary for a successful career in business and management. Students learn essential business, economic, and business-related legal concepts. Additionally, students apply management and human resource functions to a variety of business organizations and learn to analyze financial accounting information and competitive business strategies. Students who complete the Business Management AAS degree are prepared for careers in for-profit and not-for-profit organizations and the public sector.

Outcomes for Accounting Concentration

After completing this program, students will also be able to:

- Perform the functions of management
- Lead and supervise diverse, high-performance teams
- Identify and apply the marketing mix
