

COASTAL SURVEYING SKILLS, CAREER AND TECHNICAL CERTIFICATE

This stand-alone credential works with our Coastal and GIS Studies program, allowing students to learn essential surveying skills with a focus on coastal surveying. It is housed with the Coastal and GIS Studies program, allowing students to develop additional skills that enhance their employability. With this certificate, students can earn a pilot's license to operate a drone along with other surveying skills that will lead to employment opportunities in coastal restoration and preservation.

The program can be completed in one semester of full time enrollment.

Code	Title	Hours
