

EMERGENCY MEDICAL SERVICES EDUCATION

Emergency Medical Technicians (EMTs) and paramedics respond to emergencies, perform basic medical procedures, and transport patients to medical facilities for further care. They may work in an ambulance, with the fire and police departments, or as part of rescue teams.

The Student Learning Outcomes for this program are:

- Students demonstrate the ability to comprehend, apply, analyze, and evaluate information relevant to his or her role as an entry-level EMT/Paramedic, as defined by the U.S. Department of Transportation National Standard Curriculum goals and objectives.
- Students demonstrate technical proficiency in all the skills necessary to fulfill the role of an entry-level EMT/Paramedic.
- Students demonstrate personal behavior consistent with professional employer expectations for entry-level EMT/Paramedic.

Available Programs:

- Career and Technical Certificate, Emergency Medical Technician - Basic
- Career and Technical Certificate, Emergency Medical Technician - Advanced
- Certificate of Technical Studies, Emergency Medical Technician - Paramedic

With as little as two courses, students can earn an Career and Technical Certificate (CTC) to become an EMT.

The Certificate of Technical Studies in EMT - Paramedic trains students to provide advanced levels of pre-hospital care for medical emergencies and trauma.

Paramedics use complex medical equipment and work mostly in the field in ambulances and emergency response vehicles. Some paramedics may work in hospital settings. With additional education and training, Paramedics can transition to a number of health industry professions.

The Nunez Community College Paramedic Program is accredited by the Commission on Accreditation of Allied Health Education Programs (<http://www.caahep.org>) upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (CoAEMSP).
