

PATIENT CARE TECHNICIAN

The Patient Care Technicians program prepares students for careers in healthcare settings. Patient Care Technicians provide direct care and support administrative needs. Technical Competency Areas in EKG Technology and Phlebotomy can be completed as a part of this program or as stand-alone credentials.

Available Programs:

- Career and Technical Certificate, Electrocardiogram (EKG) Technician
- Career and Technical Certificate, Phlebotomy
- Certificate of Technical Studies, Patient Care Technician

EKG Technicians work in healthcare facilities with other health care professionals and specialize in electrocardiogram (EKG) testing for patients.

Phlebotomists draw blood from patients and take the blood specimens to the laboratory for testing.
